Fuel capacity (approx).....	90L (20gal)
Rec. power range.....	70-150hp
Height overall.....	1.87m (6'1½")
Hull weight.....	504 kg

Since its introduction, the Cruise Craft 520 series has been exceptionally popular with trailerboating families throughout Australia... and now it is available in an XL or cabin model, extending even further its potential for families.

The 520 XL has a comfortable cabin providing excellent shelter in times of inclement weather, safe storage for valuable fishing and picnic gear — and a terrific spot for a couple of youngsters to take an afternoon nap while Mum and Dad get on with the fishing.

Using the acclaimed 520 series hull, the 520 XL is beautifully finished, with standard cockpit seating for four and carpeted hullsides. Fitted with the optional stainless steel boarding ladder it makes getting on and off the boat for a swim, a breeze.

Available with a folding windscreen kit, the 520 XL is easily towed by regular family sedans, and only needs an inexpensive single axle trailer.
