All CruiseCraft boats are backed by an industry leading 7 Year Manufacturers Warranty. The construction process behind the CruiseCraft brand offers superior hull integrity and strength for unrivalled offshore performance and structural longevity.

The advanced hull construction technique involves an innovative sub-floor girder system, moulded cockpit liner and foam filled sub floor. Giving exceptional confidence in the integrity of the hull, the sub-floor construction assures CruiseCraft customers of a superior ride and excellent handling in rough conditions.

A key safety element to the sub-floor structure is the use of moisture & fuel retardant 2-Pak polyurethane foam throughout the sealed floor cavity.

Not only does the foam greatly reduce hull noise but also significantly increases the buoyancy rating of the hull for added safety.

CruiseCraft's commitment to manufacturing excellence has seen their Brisbane boat building facility embrace the stringent European CE level of manufacturing certification. International success across the Asia Pacific region has attracted significant CruiseCraft interest in Europe with CruiseCraft now complying with the exacting standards of CE certification.

The CruiseCraft CE models, including the Explorer and Outsider series, offer both Australian and International customers a range of performance benefits including the use of sub-floor foam and a high-grade laminate structure.

The CE Standards are approved by the International Marine Certification Institute (IMCI) together with the relevant requirements of ISO and the Recreational Craft Directive 94/25/EC.

The result is a range of tough Australian-built boats that excel in Australia and exceed all safety and manufacturing expectations across the Asia Pacific and European marine markets.

SEVEN YEAR STRUCTURAL WARRANTY FILLED DISCLAIMER:

As new technology and advanced new manufacturing techniques are constantly being developed, CRUISECRAFT BOATS Pty. Ltd. reserves the right to change model and specifications without incurring any obligations whatsoever.

As many of the photos in this catalogue are of boats owned by CruiseCraft customers, they may show optional and non-standard equipment, features such as curtains, rails, etc. Weights listed in this catalogue are as accurate as can be reasonably determined in terms of boat, motor, trailer and fit out combinations.

Check with your dealer regarding the recommended towing capabilities of your vehicle.
