

EXPLORER SERIES

625 • 575 • 500

Serious blue water anglers need a serious boat with the legs to handle plenty of green seas. The CruiseCraft Explorer series comprises three exceptional models that will take you way offshore, and back, in absolute safety.

Noted for their wide line cockpit, the Explorers are bigger in the cockpit for your fishing enjoyment. In fact these boats are designed for and totally dedicated to blue water anglers. The inventory of fishing features and appointments on board an Explorer, will make your fishing trip all the more successful.

With a proven blue water CruiseCraft hull, your trip offshore will be smooth and easy. And once the rods are out and the fishing action hits, the big stable cockpit will allow you to focus on landing big fish.

Go offshore, go sport-fishing with an Explorer.

EXPLORER 625

This is the 'grand daddy' of the blue water Explorer fishing range. Just as soon as you step on board you will appreciate all the thought that has gone into developing this as a thoroughbred fishing machine.

By any measure this is a big boat that will carry a family or any fishing group, far offshore in absolute safety and comfort. The Explorer 625 features a raised deck line, so as to provide a heap of space in the cabin. Under the flowing line of the cabin, and fitted forward of the helm, is a cabin that features a fully moulded interior. This delivers very smooth, neat lines that ensures the Explorer 625 is easy to use and easy to own.

The cockpit is expansive, with the helm position pushed a little further forward, to make fishing even easier. This is a dream 'work space' for game fishermen. The cockpit area is broad, thanks to the big 2.45m beam of the hull. And if that's still not enough, the cockpit is self draining, a rare safety feature in a boat of this length.

Check the complete list of features and you'll soon see the stand outs that set the Explorer apart from the competition... sub floor foam, stainless steel seat frames, 240 litre fuel sub floor tank, dual cockpit lights and rear door.

Blue water sports fishing boats have never been as good as the Explorer 625.

SPECIFICATIONS

EXPLORER 625

Hull Length	6.215m
Length with Bow Spirit	6.54m
Beam	2.45m
Maximum HP	200hp
Recommended Power	150hp
Deadrise Transom	20 degrees
Static Weight	2196kg
Towing Weight	1996kg
Height Overall on Trailer at Screen	2.43m (Approx)
Height Overall on Trailer with Targa	3.3m (Approx)
Length Overall on Trailer	7.7m (Redco Sportsman)
Transom Height	Extra Long
Max No. Persons	6
Fuel Capacity	240L (Approx)
