- Under floor storage
- Walk Through Transom Door
- Windscreen Rail

Our all new Outsider 595 establishes a new bench mark for family fishing and cruising. The famed Cruise Craft Outsider range now boasts an All New model which is conveniently positioned between the established 575 and 625 models.

With this new release, the Cruise Craft design team has crafted a fresh new generation of hull design from the keel up. Whilst the proven hull geometry continues, the Outsider 595 has a host of new features included.

The New Sleek Deck has been tooled with a new style walkaround that includes a convenient hatch seat. Inside the cockpit there is a full length patterned fibreglass floor liner that extends up the sides to just under the gunnel, new style bucket seats and revised upholstery design, a modular dash which accommodates large scale electronics, rear underfloor storage tank that is plumbed and a removable full width rear lounge.

For those boaters who demand a few options to customise their Outsider, why not consider the All New design folding Stainless Steel Targa, an absolute work of art. Customers can now select an optional lockable Perspex sliding cabin door to make your boat secure.

Family boating has never been better with the range of Cruise Craft Outsiders. Now the boaters have an even bigger selection of models with the release of the All New mid range Outsider 595.
